POTENTIAL**

### OnTime Management Suite

For account setup, automation, and company management.

#### Manage Employees & Subcontractors

- Track employee and subcontractor hours.
- View which users are online at any given time.
- Automatically calculate user compensation by your standards.

#### Generate Reports

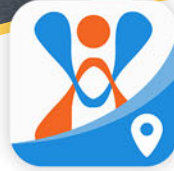

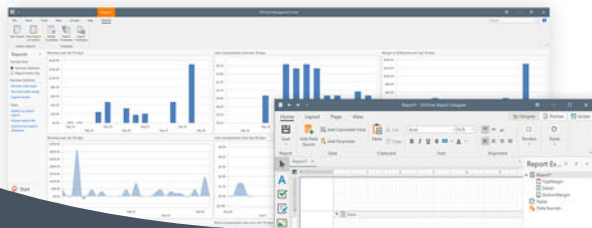

- Use pregenerated reports to get valuable insight on employee performance, company delivery revenue, and account data.
- Generate reports exactly how you need them with the Custom Report Designer.
- Use the report dashboard for a quick overview of your account.

#### Invoice Customers

- Bill and invoice customers using data automatically generated through order lifecycle.
- Create custom invoice templates to meet customer demands.
- Integrate with accounting software like Quickbooks and more.

#### Automate Tasks

- Set up automatic notifications to be sent to your customer when an order has been submitted, collected, or delivered.
- Use OnTime's powerful pricing tools to automatically generate quotes using your own rate sheet.
- Automatically track miles/kilometers by individual drivers.

### OnTime Dispatch

All-in-one interface to receive, dispatch, and track orders.

#### Speed Up Order Entry

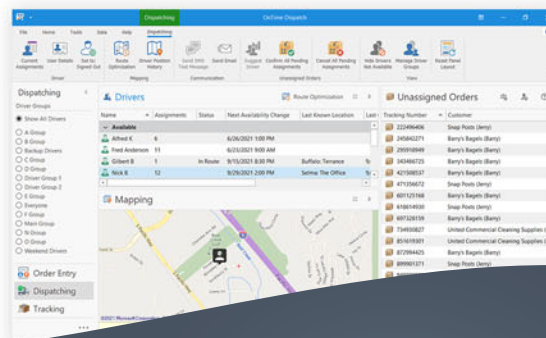

- Quickly search for customers and retrieve a history of destinations.
- Locate the most appropriate driver with the right vehicle.
- Instantly calculate pricing while still allowing for modifications.
- Calculate distance between locations automatically.

#### Enhance Your Tracking Capability

- View the details of any order in the system with the ability to preform advanced searches and filter results that meet a specific criteria.
- View signatures or photos captured at delivery time.
- Easily reassign, cancel, or reschedule an order.

#### Improve Communications with Drivers & Customers

- Send orders and text messages to driver's mobile device and be notified when they have been recieved by the driver.
- Utilize the driver's constant updates to provide customers with automatic notifications by email or fax.

### OnTime Mobile

Complete driver tool to confirm, collect, and deliver orders.

#### All-In-One Application

- Reduce need for barcode scanners, cameras, signature papers, GPS, and communication devices.
- Communicate in real-time with the system receiving updates from dispatchers, automatically and immediately updating the system when collection or delivery is complete.
- Tap into broad compatibility and support with whichever mobile device you are currently utilizing.

#### Improve Communications with Your Dispatcher

- Instant access to assigned orders and messages.
- Ability to review and accept unassigned orders.
- Quickly and easily notify dispatchers of order status.

#### Proof of Delivery

- Take photo proof of delivery directly from the mobile app.
- Convenient barcode support from your phone.
- Get signatures from customers on delivery.
- Geo-lock orders to ensure the delivery and address match.

## GET STARTED QUICKLY & EASILY!

#### Accessible Technical Support

- Easily access the knowledge base, written, and video tutorials.
- Keep up-to-date with the OnTime blog.

#### Affordable, Efficient, Reliable

- Take advantage of a flexible pricing structure with a low entry price,
  - Reduce the learning curve with an easy-to-learn system.
- Be confident with the highly reliable and secure environment.
